-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 12/22/2005 complies with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
 2. Ascertaining the differences between the prior art and the claims at issue.
 3. Resolving the level of ordinary skill in the pertinent art.
 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
4. Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nii et al (5,804,947) in view of Skrzypek et al (6,645,017)

The patent to Nii et al discloses a vehicle generator control system comprising a battery 14 connected to a generator 24. The battery is connected to an inverter 12 controlled by a controller 28. The controller detects the current 42 and battery voltage VB to control the inverter current and torque control of the motor 10. The current and

voltage of the generator/battery feedback are monitored to control the charging current and torque of the motor for a first operating mode and a second operating mode as recited in the claims. Whereas, the claims recite that the inverter and generator system is used for a vessel. However, the patent to Skrzypek et al discloses generator and inverter control system for marine vehicles. Since the "vehicle" of Nii et al is listed as hybrid electric vehicle, it is not limited to use only automobile, the "vehicle" could be used for vessel such as marine vehicle. In light of Skrzypek et al's marine power generator system needs to control the generator and inverter functions, it would have been obvious to one of ordinary skill in the art to modify Nii et al's system for vessel or marine vehicle as taught or suggested by Skrzypek et al.

Communication Information

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to /PAUL IP/ whose telephone number is (571)272-1941. The examiner can normally be reached on Monday to Friday from 6:30 am to 3:00 pm.
